Borned: 24-09-1961

## Resume

I have many years of experience with the LAMP stack and especially PHP. My force is backend but much of my work has been front end.

With an education as an engineer, I am naturally strong in complex algorithms.

I especially love giving users a great experience, by making complex systems look simple.

## Privat

My main interests are family, music, running and dancing.

Has been the top 3 Danish middle distance runner, and still trains almost every day.

## Education

1986-94: Engineer, master degree (E), specializing in neural networks and speech recognition.

1985-86: Preparation for university (mat, fys and chemistry).

1983-85: High School (HF - mat, fys and Chemistry).

1978-82: Aircraft mechanic at Scandinavian Airline System.

## Professional experience

**2021 februar – 2021 marts**

**HK** (Consulent: Webdeveloper)
